OUR MISSION

WE WILL LEAD THE INDUSTRY IN QUALITY & INNOVATION

We know that there can be no compromise when you live the philosophy of building the best! Every decision regarding our product design is made with one unwavering goal...

TO MAKE THE REQUIRED PRODUCT THE VERY BEST IT CAN BE.

YOUR REEL SOURCE

A HIGHER LEVEL OF STANDARDS

CPC™ POWDER COAT
Our blue powder coat finish that is long lasting, chip resistant & rust inhibiting

BRASS SWIVEL
External fluid path, machined from solid brass, full flow, swivel for simple seal maintenance

STEEL AXLE
1” solid steel axle and lubricated bearings for extra strength & durability. Not a hollow tube & no fluid travels through it

CNC SPUN DISCS
All steel rolled edges & ribbed discs for added safety, strength & durability

CARTRIDGE MOTOR
Enclosed factory tuned & matched cartridge style motor for safe & easy replacement

EZ-COIL® SERIES
A patented safety system that retracts up to 80% slower than conventional reels

Dear Valued Customer,

Thank you for choosing COXREELS! Entering into our 9th decade under the 3rd generation of family ownership and operation, we are proud to manufacture the industry's highest quality and widest variety of hose, cord, and cable reels. We remain aware that our products are called on to be the most reliable product built to faithfully perform in various settings and applications.

Our team takes great pride in our growth and innovation as a U.S. manufacturer. We recognize USA Made, USA Quality, and USA Support as critical components to delivering incomparable product value. These founding principles are displayed and reflected in each model and every part of the Coxreels product line! Our advanced engineering and manufacturing processes make extensive use of in-house design, CNC machinery with robotic welding and robotic spin cell operations, and modern automation systems that allow us to develop and build state-of-the-art reeling platform solutions that meet the most demanding requirements in the industry.

In these pages you will see the quality, variety, value and innovation that has made us a world leading reel manufacturer. Over 80 years as the industry leader proves that constant learning and communication with the industries we serve, innovative engineering and the highest standards in quality and service ensure we will continue to innovate with new proprietary technologies, superior special features and superior products that set the bar in the reel industry.

I also would like to offer my thanks to all of our customers who are the cornerstone of this business. It is with your support that we drive our position of leadership and innovation to new heights each and every year.

Sincerely,

Brad Cox – President

_Super Hub_  
1/4” steel frame & support arm with dual axle support with SUPER HUB™ for increase strength & durability

_Low Profile Riser_  
Low profile riser with open drum slot allows for smooth even hose wraps that will not pinch or bind your hose. NO HUMP!

_All Welded Steel “A” Frame_  
All welded steel “A” frame for strength & durability. NOT BOLTED!

_Direct Drive Motors_  
A solid steel halo is welded to the disc for a direct gear driven motor

**2 Year Warranty**  
Coxreels proudly stands behind our reels as they are built to last!

**USA Made, Quality & Support**  
We take great pride in designing, building and supplying the world’s finest reels made right here in the U.S.A.

HOW TO ORDER

The size, length and type of hose to be handled are primary factors in selecting the proper reel for your job. The following points should be considered:

1. HOSE I.D., O.D. & LENGTH
   When space permits, select a reel with greater hose capacity than you require. This allows you to rewind the hose with less care and keeps the hose well protected within the disc dimension, even if the hose is not wound in uniform coils. (See hose selection chart below)

2. SIZE & TYPE OF SWIVEL JOINT & SEAL FOR INLET & OUTLET
   In selecting your reel please note the size of your hose versus the inlet and outlet sizes. Reducing your fitting & hose size will allow for more hose capacity. Please refer to the o-ring seal compatibility chart on page 50 for special application requirements.

3. RETRACTION METHOD & PROPER USE
   Choose from Spring Driven, Hand Crank or Motor Driven retraction.
   SPRING DRIVEN: Automatic rewind requiring no power source. Operator is to guide the hose or cord as it self-retracts and wraps around the drum. For models to be mounted 15 feet above the floor, consult factory & specify on P.O.’s for proper spring retraction motor.
   HAND CRANK: Operator must manually crank the reel and guide the hose or cord evenly as it wraps around the drum to reach full capacity.
   MOTOR DRIVEN: Requires a power source to operate in AC, DC, Air or Hydraulic power. On/Off switches and speed controllers are available to help control retraction speed. You must guide the hose or cord efficiently back on the reel to reach full capacity.

4. MOUNTING POSITION
   Determine which mounting position you require. All reels are shipped in the floor-ceiling mount (FM) position with the exception of the “T,” “EN,” and “SD” Series, which are shipped in the wall-truck mount (WM) position. See diagram to the right for the “SP & DP” Series as well.

5. CHOOSE TYPE OF HOSE
   Consider temperature, product type and pressure required (PSI).
   Always use good quality hose rated for the service and operating pressure required. Poor quality hose tends to expand and contract under pressure surges. When this happens, hose remaining on the reel may bind and become difficult to handle. In extreme cases, poor quality hose may expand under pressure to the extent that the reel becomes distorted and inoperable.

6. ADDITIONAL OPTIONS
   Customize your reel to meet your exact requirements. Once you select your reel type consider the different add-on features such as roller brackets, special mounting brackets, carry handles or a cart for portability. See the options available indicated on each page.

E-MAIL INFORMATION

If you would like more information, feel free to e-mail us concerning your order or general questions you may have.

For general info or questions: info@coxreels.com
For technical assistance: techassist@coxreels.com

HOSE SELECTION

The drawing below shows two reels with different shapes and dimensions but with identical hose capacity. In most cases, more than one reel will handle the size and length of hose you need, so you can specify a reel to fit your space requirements.

See Page 50 For Hose Assemblies & Component Parts

SELECTING THE PROPER REEL

BASIC INFORMATION

The Diagram Below Indicates The Basic Information Which Should Be Determined Before Ordering.

Hose I.D., O.D., & Length

Size & Thread Of Outlet Connection

Size & Type Of Swivel Joint

Operating Pressure Range

Product Temperature Range

Caution! Failure to use flexible connector between the inlet pipe and swivel joint will invalidate our warranty.

MOUNTING POSITIONS

The Diagrams Below Indicate The Mounting Positions Which Should Be Determined Before Ordering.

ALL MODELS with the exception of the SP & DP Series

“FM” Floor-Ceiling Mount
All reels are shipped in this position unless specified with the exception of the T, EN, SD, SP & DP Series

“WM” Wall-Truck Mount
T, EN & SD Series are shipped in this position unless specified

“BM” Bottom-Truck Mount

“DM” Down Mount

SP & DP SERIES

“FM” Floor-Ceiling Mount (Drag)
All SP & DP Series are shipped in this position unless specified

“CM” Ceiling Mount (Lift, Stretch Or Recover)

“WM” Wall Mount (Lift)

COXREELS Safety Series reels featuring the patented EZ-Coil® Rewind Safety System, engineered and developed exclusively by Coxreels, are the only choice for safe spring driven hose, cord and cable reel operation in the workplace. EZ-Coil® works uni-directionally without any increase to the amount of resistance when pulling out the hose, cord or cable. But, when engaged upon recoil, it controls the aggressive spring motor energy resulting in a reel that retracts at a safe and steady pace. Upgrade your workplace with EZ-Coil® equipped professional grade industrial hose, cord, and cable reels!

INCREASED SAFETY HOW?

► Reduce retraction speed by up to 80%
► Control hose or cord whip hazard
► Requires no external power source
► Enhance operator and workplace safety
► Keep your workplace organized
► Utilize space and maximize efficiency
► Improve hose, cord & cable management
► Extend longevity of hose, cord & cable
► Increase productivity

PROFESSIONAL GRADE
FEATURES :: HOSE REELS

Adjustable solid rubber hose stop for lead length positioning
Versatile guide arm adjusts to wall, floor, ceiling & vehicle mounting
External fluid path with machined from solid brass 90° full-flow NPT swivel that screws directly on 1" solid steel axle, for simple seal maintenance and fast and easy hose installation
High quality steel construction with our durable CPC™ powder coat finish
Heavy duty spun discs with rolled edges for greater strength, made with first of its kind CNC robotic spin cell
Enclosed factory tuned and matched cartridge-style spring motor for safe and easy maintenance
Heavy gauge 1/4" steel base & support post for maximum stability

ALSO AVAILABLE WITH STAINLESS STEEL construction & swivel

SUPER HUB™ EQUIPPED MODELS: INCREASED REEL STRENGTH for more demanding applications with multiple support to the axle

Double axle support on SH, MP & HP Series
Triple axle support with Super Hub™ & a full frame on T Series

MIRROR YOUR REEL
Reverse your reel with suffix option -BXR

SPRING DRIVEN REELS

PROFESSIONAL GRADE
Cord Reels :: Features

Versatile guide arm adjusts to wall, floor, ceiling & vehicle mounting

Adjustable solid rubber hose stop for lead length positioning

Heavy duty spun discs with rolled edges for greater strength, made with first of its kind CNC robotic spin cell

Heavy gauge powder coated steel components cover protecting the slip ring & all electrical components

High quality steel construction with our durable CPC™ powder coat finish

Includes 5’ lead cable & grounding plug (except on less cord models)

Enclosed factory tuned and matched cartridge-style spring motor for safe and easy maintenance (located under protective component cover)

Choice of electrical accessories
LG SERIES - REEL SPECIFICATIONS

**SWIVEL**
- External fluid path with machined from solid brass 90° full-flow NPT swivel inlet
- Swivel Seals: NITRILE

**DESIGN & STRUCTURE**
- Compact & lightweight spring driven hose reel save space & facilitate workplace organization
- CoxComposite™ grommet with continuous radius design that does not pinch or catch the hose during operation
- Solid one piece, 12GA steel base & support post for maximum stability
- ½” solid steel axle & lubricated precision bearings for smooth rotation
- Designed for lightweight PVC hose & tubing

**RETRACTION**
- Enclosed factory tuned & matched cartridge-style spring motor
- Non-corrosive CoxComposite™ ratchet hub with self lubricating bronze bearings secures hose at desired length

**SIGNATURE FEATURES**
- Professional grade heavy duty steel construction
- Durable proprietary CPC™ powder coat process
- Rolled edges & ribbed discs provide strength & safety
- Leading 2-year manufacturer's limited warranty
- Made in the U.S.A. - Sold & Supported Worldwide

**POSSIBLE FIELDS OF APPLICATION**
- Pneumatic Tools
- Tubing Applications
- Washdown
- General Commercial & Industrial
- Bench Mount

**ACCESSORIZE YOUR REEL:** Pg 50
- O-Rings & Swivels
- Assorted Reel Accessories

COXREELS® LG SERIES Compact Efficient Hose & Tubing Reels

COXREELS® LG Series “Little Giant” is the first lightweight - heavy duty reel on the market. The LG is perfect for commercial or industrial applications where space or budget is limited. It is extremely lightweight and compact and can install almost anywhere. This little giant can accept either a 1/4” or 3/8” hose to tackle the jobs of reels almost double its size.

**LOW PRESSURE**
Models with hose are for air or water service with a maximum temperature 150˚ F. Models less hose can be used for air, water or oil.
Note: Do not exceed listed hose O.D. to obtain maximum length.

COXREELS® LG FEATURES

**CoxComposite™ Hub Features**
- Integrates High-Strength Composite With Self Lubricating Bronze Bearing
- Over 100% More Impact Strength Than Typical Glass Filled Polypropylene Used In Other Reels
- Strength Actually Increases By 20% At Sub-Zero Temperatures (Actual Test Results Measured At -40°C)
- Excellent Chemical Resistance

**CoxComposite™ Grommet Features**
- Continuous Radius Design Allows The Use Of Various Size Tubing In Addition To Standard Hose Sizes
- Absolutely No Pinching & No Place To Catch
- Bearing Grade, FDA-Compliant Composite
- Excellent Chemical Resistance
COXREELS® P Series “Performance” spring driven hose reels have a long history of dependability and trouble free performance. Their compact space-saving size and heavy duty construction make them highly versatile and virtually indestructible. Time-tested proven history of dependability and trouble free performance.

LOW PRESSURE
Models with hose are for air, water or service with a maximum temperature 250°F. Models less hose can be used for air, water or oil. Note: Do not exceed listed hose O.D. to obtain maximum length.

COXREELS® P Series Hose Reels

- Spring driven
- Mounting Pattern
- Superior design and craftsmanship
- Lightweight, durable, & versatile
- Full-flow NPT swivel inlet
- Heavy duty construction
- Modern design

Accessories:
- Mounting Brackets
- Various hose options
- EZ-Coil® feature

Contact us for more information.

### HEAVY DUTY HOSE REELS

**SH, MP & HP SERIES**

**Coxreels® SH Series “Super Hub™” spring driven hose reels, like the P Series, have a long history of dependable performance.** The larger chassis and frame accommodate longer lengths and larger diameters of hose. Coxreels® original Super Hub™ dual axle support system increases the stability during operation, reduces vibration and strengthens the structural integrity of the reel.

#### LOW PRESSURE

Models with hose are for air or water service with a maximum temperature 150˚ F. Models less hose can be used for air, water or oil. Not: Do not exceed listed hose O.D. to obtain maximum length.

**www.coxreels.com • 1.800.COX.REEL**
COXREELS® C Series “Combination” spring driven hose reels are a combination of two hose reels in one compact assembly. They are perfect for applications in which two sources are needed to get the job done when space is a critical factor. The single mounting base creates stability and adds to the convenience of one mounting pattern. This series is also available in air hose/electrical cord combinations.

LOW PRESSURE
Models with hoses are for air or water service with a maximum temperature 150˚ F. Models less hose can be used for air, water or oil. Note: Do not exceed listed hose O.D. to obtain maximum length.

MEDIUM PRESSURE
Reels are furnished with standard one wire braid hose suitable for air, water or oil applications. Hose exceeds SAE R1 specifications. Maximum temperature 250˚ F. Note: Do not exceed listed hose O.D. to obtain maximum length.

HIGH PRESSURE
Reels are furnished standard with S.A.E. 100R16 #1 or #2 wire braid hose suitable for grease and hydraulic oil applications. Maximum temp. 250˚ F. Note: Do not exceed listed hose O.D. to obtain maximum length.

C SERIES: REEL SPECIFICATIONS

- Two external fluid paths with machined from solid brass 90° full-flow NPT swivel inlets (Zinc plated steel swivels on HP models)
- Compact two reel assembly for dual hose applications, each reel operates independently
- Guide arm adjusts to wall, floor & overhead positions
- Swivel Seals: NITRILE
- Compact two reel assembly for dual hose applications, each reel operates independently
- Swivel Seals: NITRILE
- One mounting pattern allow 1/2 the installation time required to install 2 reels at one station
- 1” solid steel axle & lubricated precision bearings for smooth rotation
- Enclosed factory tuned & matched cartridge-style spring motor
- Non-corrosive stainless steel spring, pawl & zinc plated ratchet
- Multi-position lock ratchet mechanism secures hose at desired length
- Professional grade heavy duty steel construction
- Durable proprietary CPC™ powder coat process
- Rolled edges & ribbed discs provide strength & safety
- Leading 2-year manufacturer’s limited warranty
- Made in the U.S.A. - Sold & Supported Worldwide

SIGNATURE FEATURES

- Reel Dimensions
- Technical Data Sheets Available On Website
COXREELS® C Series “Combination” spring driven air hose/electric cord reels are two reels in one compact assembly. They are perfect for applications that require pneumatic air and an electrical power feed. The single expanded mounting base creates stability and adds to the convenience of one mounting pattern. This series is also available in dual hose combinations.

FOR INDOOR USE ONLY

Coxreels electric and pneumatic hose reels operate as two independent, self-retracting 50 foot trouble-free assemblies. All models rated: 115 volts, 3* conductors, 60 hz single phase.

COXREELS® EN Series “Enclosed” spring driven hose reels are protected by a powder coated steel casing that shields out the elements to protect and extend the life of the reel, the hose and the components inside. It adds a neat, tidy, aesthetic appearance to work environments that demand a clean and professional look. The 3 piece casing is easy to assemble and disassemble for simple installation and maintenance.

LOW PRESSURE
Models with hose are for air or water service with a maximum temperature 150°F. Models less hose can be used for air, water or oil. Note: Do not exceed listed hose O.D. to obtain maximum length.

MEDIUM PRESSURE
Reels are furnished with standard one wire braid hose suitable for air, water or oil applications. Hose exceeds SAE R1 specifications. Maximum temp. 250˚ F. Hose less hose are for air or water service with a maximum temperature 150°F. Models less hose can be used for air, water or oil.

HIGH PRESSURE
Reels are furnished standard with S.A.E. 100R16 #1 or #2 wire braid hose suitable for grease and hydraulic oil applications. Maximum temp. 250˚ F. hose less hose are for air or water service with a maximum temperature 250°F.

www.coxreels.com • 1.800.COX.REEL
COXREELS® E Series “Expandable” multiple bank system is the pinnacle in professional appearance and organization. The cabinets are interlocking and expandable to any number of spring driven reel assemblies required. Designed for easy installation, maintenance and servicing the E Series system is truly the professional’s choice for multimedia delivery in one custom package.

LOW PRESSURE
Models with hose are for air or water service with a maximum temperature 250˚ F. Models less hose can be used for air, water or oil service. Hose exceeds SAE R1 specifications. Note: Do not exceed listed hose O.D. to obtain maximum length.

MEDIUM PRESSURE
Reels are furnished with standard one wire braid hose suitable for air, water or oil applications. Hose exceeds SAE R1 specifications. Note: Do not exceed listed hose O.D. to obtain maximum length.

HIGH PRESSURE
Reels are furnished standard with S.A.E. 100R16 #1 or #2 wire braid hose suitable for grease and hydraulic oil applications. Maximum temp. 250˚ F. Note: Do not exceed listed hose O.D. to obtain maximum length.

E SERIES - REEL SPECIFICATIONS

- External fluid path with machined from solid brass 90° full-flow NPT swivel inlet (Zinc plated steel swivel on HP models)
- Swivel Seals: NITRILE

DESIGN & STRUCTURE
- Designed for expandable metal cabinets & multiple reel bank systems
- Solid one piece, heavy gauge 1/4” steel base & support post for maximum stability
- 1” solid steel axle & lubricated precision bearings for smooth rotation

RETraction
- Controlled retraction speed up to 80% slower on E-Z-Coil models. See page 7 for details
- Enclosed factory tuned & matched cartridge-style spring motor
- Non corrosive stainless steel spring, pawl & zinc plated ratchet
- Multi-position lock ratchet mechanism secures hose at desired length

SIGNATURE FEATURES
- Professional grade heavy duty steel construction
- Durable proprietary CPC™ powder coat process
- Rolled edges & ribbed discs provide strength & safety
- Leading 2-year manufacturer’s limited warranty
- Made in the U.S.A. - Sold & Supported Worldwide

POSSIBLE FIELDS OF APPLICATION
- Air/Water Services
- Pneumatic Tools
- Manufacturing Plants & Facilities
- Water Services & Operations
- Lubrication
- Automotive Dealerships
- Chemical Fluid Transfer
- Quick Lube
- General Industrial
- Service Centers
- Cabinet Mount

ACCESSORIZE YOUR REEL - pg 50
- O-Rings & Swivets
- Mounting Cabinet
- Hoses
- Assorted Reel Accessories

COXREELS® ACCESSORY

Cabinet
Length: 24½” Width: 11½” Height: 22½”
- Unlimited expandability
- Easy to install
- Cabinet constructed of 14 gauge steel with 4-roller non-snag hose guide system for reduced hose wear
- All steel access panel
- Mounting bracket is ½” bent steel, fits 3” to 8½” flange on “T” or “H” beam
- Easy access for connection of air, water, oil & grease

METAL CABINET: #1796-2
Includes cabinet, access panel & mounting bracket. Weight: 45 lbs.

END PANELS: #1798-1
Includes a set of two, all steel construction. Finished & caps the ends of each bank. Weight: 8 lbs.
**S & SW SERIES**

**SIDE MOUNT HOSE REELS FOR CABINET MOUNT**

COXREELS® S Series “Side Mount” spring driven hose reels for cabinet mount are compact, versatile and unique in the way they mount and operate. They feature a simple two-bolt mounting pattern for easy installation and detachment for multiple workstation applications. S Series is available for air/water, oil, grease, oxy-acetylene and T Grade gas welding hose. The 360° hose direction allows the user to operate the reel in any direction the job demands. Common applications include service units, tool boxes, vertical walls and beams, vehicle lift systems, machine tools, service vehicles or any flat vertical surface.

*The tables below only shows “Mount Right” models. To order “Mount Left” models replace “R” with “L”. EXAMPLE: Change the SR13-L125 to SL13-L125*

### S SERIES LOW PRESSURE

Models with hose are for air/water service with a maximum temperature 150°F. Models less hose can be used for air, water or oil. Note: Do not exceed listed hose O.D. to obtain maximum length.

### S SERIES MEDIUM PRESSURE REELS

Reels are furnished with standard one wire braid hose suitable for air, water or oil applications. Hose exceeds SAE R1 specifications. Maximum temperature 200°F. Note: Do not exceed listed hose O.D. to obtain maximum length.

### S SERIES HIGH PRESSURE REELS - HP

Reels are furnished standard with S.A.E. 100R16 #1 or #2 wire braid hose suitable for grease and hydraulic oil applications. Maximum temp. 250°F. Note: Do not exceed listed hose O.D. to obtain maximum length.

### SW SERIES WELDING HOSE REELS - SW

Hose supplied on reel Oxy-Acetylene or T-Grade. Oxy-Acetylene is twin-siamese type meeting R.M.A. and C.G.A. type V.D. grade R specifications. Use of other types of hose is not recommended. Reels with "T Grade" hoses are used for a wide variety of gases, such as MAPP, propane, natural and fuel. Note: Do Not Exceed Listed Hose O.D. To Obtain Max. Length.

### POSSIBLE FIELDS OF APPLICATION

- Air/Water Services
- Pneumatic Tools
- Lubrication
- Chemical Fluid Transfer
- Welding Shops
- O-Rings & Swivels
- Assorted Reel Accessories
COXREELS® SG & SGW Series expand the capabilities of the “Side Mount” spring driven hose reels, adding a multi-position guide arm for maximum and convenient hose control. Ideal for tight spaces, the versatile SG Series (for air/water, oil and grease) and SGW Series (for oxy-acetylene and T Grade gas welding hose) feature a simple two-bolt mounting pattern for easy installation and detachment on any vertical flat surface. Common applications include service vehicles, tool benches, vertical walls and beams, vehicle lift systems, machine tools and more. The guide arm and roller assembly are easily moved to one of the six different positions with a standard 1/4” wrench.

**SG SERIES LOW PRESSURE**

Models with hose are for air or water service with a maximum temperature 150˚ F. Models less hose can be used for air, water or oil. Note: Do Not exceed listed hose O.D. to obtain maximum length.

**Hose Specifications**

- External fluid path with machined from solid brass 90° full-flow NPT swivel inlet (Zinc plated steel swivel on HP models)
- Swivel Seals: NITRILE
- External fluid path with 90° full-flow dual ported brass swivel offering both connections from the same side of the reel
- Swivel Seals: VITON® (On SGW Models)

**SG SERIES MEDIUM PRESSURE**

Reels are furnished with standard one wire braid hose suitable for air/water or oil applications. Hose exceeds SAE R1 specifications. Maximum temp. 250˚ F.

**Hose Specifications**

- Swivel Seals: VITON® (On SGW Models)

**SG SERIES HIGH PRESSURE :: HP**

Reels are furnished with S.A.E. 100R16 #1 or #2 wire braid hose suitable for grease and hydraulic oil applications. Maximum temp. 250˚ F. Note: Do Not exceed listed hose O.D. to obtain maximum length.

**Hose Specifications**

- Side mount design for vertical flat surface, cabinet or enclosed space mounts
- Adjustable 6 position guide arm & roller assembly provide maximum hose control
- 2-bolt mounting pattern easily mounts & detaches for temporary or permanent installation
- Solid one piece, 3/16” steel arm base for maximum stability
- 1” steel solid axle & lubricated precision bearings for smooth rotation

**SG SERIES WELDING HOSE REELS :: SGW**

Hoses supplied on reel are Acetylene at T Grade. Other Acetylene is on a separate factory meeting R.M.A. and C.G.A. type V.D. grade R specifications. Use of other types of hose is not recommended. Reels with “T Grade” hoses are used for a wide variety of gases, such as MAPP, propane, natural and fuel. Note: Do Not Exceed Listed Hose O.D. To Obtain Max. Length.

**Hose Specifications**

- Enclosed factory tuned & matched cartridge-style spring motor
- Non corrosive stainless steel spring, pawl & zinc plated ratchets
- Extra position lock ratchet mechanism secures hose at desired length.
- Non-locking, less ratchet option available (add suffix –EXC)

**SIGNATURE FEATURES**

- 2-year manufacturer’s limited warranty
- Made in the U.S.A. - Sold & Supported Worldwide

**POSSIBLE FIELDS OF APPLICATION**

- Air/Water Services
- Pneumatic Tools
- Welding Shops
- Service / Mechanic / Utility Vehicles

**ACCESSORIZE YOUR REEL :: Pg 50**

- O-Rings & Swivels

Technical Data Sheets Available On Website

![Diagram of Reel Dimensions](image)
SP SERIES HIGH CAPACITY HOSE REELS

Coxreels® SP Series “Single Product Delivery” spring driven hose reels are built to handle large hose diameters. Used in applications demanding large volume delivery in low and medium pressures such as fuel and water. The sturdy box-style frame has heavy duty steel cross supports to all four corners for extra strength and rigidity.

**LOW PRESSURE**
Dual braided hose for applications 250 to 300 psi and temperatures to 150°F. Reel less hose 250°F. For higher temperatures and pressures, see price sheet or consult factory. **NOTE:** Do not exceed listed hose O.D. to obtain maximum length.

**MEDIUM PRESSURE**
Steel reinforced 100 RI hose for applications 1500 to 2500 psi and temperatures to 250°F. For higher temperatures and pressures, see price sheet or consult factory. **NOTE:** Do not exceed listed hose O.D. to obtain maximum length.

### SP SERIES - REEL SPECIFICATIONS

**SWIVEL**
- External fluid paths with machined from solid brass 90° full-flow NPT swivel inlets
- Swivel Seals: NITRILE (AFLAS on 1” models)
- Electrocold nickel plated steel swivel on 1” models
- Straight in-line aluminum swivel on 1/2” models

**DESIGN & STRUCTURE**
- Reel features a sturdy box-style frame design
- Reel adjusts to wall, floor, vehicle & overhead positions
- Heavy gauge 1/4” steel base for maximum strength
- Reinforced steel frame provides maximum strength & stability
- Long lasting self-lubricated flange bearings for smooth rotation
- Heavy duty 1” stainless steel pinch-proof rollers

**RETRACTION**
- Enclosed factory tuned & matched cartridge-style spring motor
- Non corrosive stainless steel pawl spring
- Cast iron lock ring with non-sparking bronze pawl
- Multi-position lock ratchet mechanism secures hose at desired length

**SIGNATURE FEATURES**
- Professional grade heavy duty steel construction
- Durable proprietary CPC™ powder coat process
- Rolled edges & ribbed discs provide strength & safety
- Leading 2-year manufacturer’s limited warranty
- Made in the U.S.A. - Sold & Supported Worldwide

### POSSIBLE FIELDS OF APPLICATION

### ACCESSORIZE YOUR REEL: PG 50
- 0-Rings & Swivels
- Assorted Reel Accessories

### REEL DIMENSIONS
Technical Data Sheets Available On Website
**COXREELS® DP Series “Dual Product Delivery” spring driven hose reels have two swivel inlets and two outlets for dual hose applications.** Like the SP Series they are built to handle large hose diameters used in applications demanding large volume delivery in low and medium pressures. The sturdy box-style frame has heavy duty steel cross supports to all four corners for extra strength and rigidity.

### LOW PRESSURE

Two swivel joint inlets and two outlet risers to simultaneously handle equal lengths of two hoses. Hoses can be different diameters, in which case the larger hose diameter determines capacity of the reel. For applications 300 psi and temperatures to 250° F. For higher.

### MEDIUM PRESSURE

Two swivel joint inlets and two outlet risers to simultaneously handle equal lengths of two hoses. Hoses can be different diameters, in which case the larger hose diameter determines capacity of the reel. For applications 3000 psi and temperatures to 250° F.

NOTE: Do not exceed listed hose O.D. to obtain maximum length.

### DESIGN & STRUCTURE

**DESIGN**
- Exhaust hose reel designed to enable the extraction of exhaust fumes directly from the source of their emission & maintain safer shop air quality.
- 6” exhaust ductwork on all models
- For floor, wall & overhead mounting applications
- Easy access panel to the drum for convenient routine maintenance
- Hose guide rail
- Internal ducting is included

**STRUCTURE**
- Reel features an all welded steel frame, no bolts, for strength & durability
- Drum mounted hose guide

**RETRACTION**
- Enclosed factory tuned & matched cartridge-style spring motor
- Cast iron lock ring with non-sparking bronze pawl
- Multi-position lock ratchet mechanism secures hose at desired length.

**SIGNATURE FEATURES**
- Professional grade heavy duty steel construction
- Durable proprietary CPC™ powder coat process
- Rolled edges & ribbed discs provide strength & safety
- Leading 2-year manufacturer’s limited warranty
- Made in the U.S.A. + Sold & Supported Worldwide

**POSSIBLE FIELDS OF APPLICATION**
- Indoor Vehicle Exhaust
- Removal System
- Vehicle Manufacturing
- Facilities
- Automotive Dealerships
- Automotive & Fleet
- Service Centers
- Garage Settings
- Fire Stations

**REEL DIMENSIONS**

Size Index | W  | H  | L  | X  | Y  | Ø  | Dw |
---|---|---|---|---|---|---|---|
1 | 28 1/4” | 29 1/2” | 2 9 1/2” | 24” | 23 1/4” | 14” | 18” | 18” |
2 | 37 1/4” | 29 1/2” | 24” | 32 1/4” | 14” | 18” | 28” |
3 | 41 1/4” | 29 1/2” | 24” | 36 1/4” | 14” | 18” | 32” |

**COXREELS® 300 FEATURES**

**Easy Access Panel**
- An easy to remove panel allows full access to the drum

**All Welded Steel Frame**
- An all welded steel frame for strength, durability, stability & to prevent tip-overs

**PERFECT FOR:**
- Repair Centers
- Fire Stations
- Service Station
- Smog Stations
- Emergency Crews
COXREELS® V Series spring driven and hand crank vacuum hose reels are available in both vacuum only and vacuum/pneumatic combinations. Both are designed to extract unwanted fumes, particles and by-products from your work area. The vacuum/pneumatic models have dual plumbing for vacuum extraction while simultaneously powering pneumatic tools such as grinders and sanders in an enclosed efficient system.

### V SERIES - REEL SPECIFICATIONS

- Direct hand crank reel with a solid one piece steel “U” shaped frame design
- Lightweight & compact design makes this reel the ideal solution for commercial vacuum systems
- Direct connect port for vacuum hose with bullet cuffs
- Adjustable tension brake to prevent “free-wheeling” during operation, transport or storage

- Sturdy all welded “A” frame base with a double supported steel axle
- Bevel gear hand crank
- Removable crank handle for compact storage
- Low profile outlet riser & open drum slot design, provide a non-crimping, flat smooth hose wrap
- Enclosed factory tuned & matched cartridge-style spring motor
- Lubricated factory matched cartridge-style spring motor
- Heavy duty 1" O.D non-corrosive stainless steel rollers
- Cast iron lock ring with non-sparking bronze pawl

www.coxreels.com • 1.800.COX.REEL
COXREELS® P-W and SHW Series spring driven “Welding” hose reels are the ideal solution for managing bulky twin line welding hose. The P-W Series, like the P Series, is more compact in size and shares the reputation for long lasting performance. The SHW Series has a larger chassis and frame to accommodate longer lengths of welding hose and Coxreels’ original Super Hub dual axle support system for increased stability during operation, less vibration and greater structural integrity.

**OXYGEN-ACETYLENE WELDING HOSE REELS**

Hose supplied on reel is twin-siamese type meeting R.M.A. and C.G.A. type V.D. grade R specifications. Use of other types of hose is not recommended. Note: Do Not Exceed Listed Hose O.D. To Obtain Max. Length.

**ACCESSORIZE YOUR REEL - pg 50**

- O-Rings & Swivels
- Hoses
- Mounting Brackets
- Assorted Reel Accessories

**SIGNATURE FEATURES**

- Professional grade heavy duty steel construction
- Durable proprietary CPC™ powder coat process
- Rolled edges & ribbed discs provide strength & safety
- Leading 2-year manufacturer’s limited warranty
- Made in the U.S.A. - Sold & Supported Worldwide
P-WC SERIES

COXREELS® P-WC Series spring driven “Welding Cable” reels protect and extend the life of your welding cable by neatly and conveniently storing it on a 25, 35 or 50 foot self-retracting welding cable reel. They are the solution for keeping your work area safe, organized and efficient.

### Welding Cable Reel

Protect & extend the life of your welding cable while keeping your work area and vehicles clean & organized. Caution: When using reel for extended periods of time unwind all cable to prevent heat build up.

#### Cable Protection & Life Extension

- Neatly and conveniently stores welding cable
- Protects and extends the life of your welding cable

#### Reel Specifications

- External, easily accessible heavy gauge CPC™ powder coated steel components cover for simple slip ring routine maintenance
- Electrical current runs through a 450 AMP rated slip ring
- Designed for electrode & grounding lead applications (each lead requires an individual reel)
- Single pedestal reel with space saving design facilitates workplace organization
- Welding cable clamp available (see below)
- Guide arm adjusts to wall, floor, vehicle & overhead positions
- Solid one piece, heavy gauge 1/4" steel base & support post for maximum stability
- 1" solid steel axle & lubricated precision bearings for smooth rotation
- Enclosed factory tuned & matched cartridge-style spring motor
- Non corrosive stainless steel spring, pawl & zinc plated ratchet
- Multi-position lock ratchet mechanism secures cable at desired length

#### Signature Features

- Professional grade heavy duty steel construction
- Durable proprietary CPC™ powder coat process
- Rolled edges & ribbed discs provide strength & safety
- Leading 2-year manufacturer's limited warranty
- Made in the U.S.A. - Sold & Supported Worldwide

#### Possible Fields of Application

- Manufacturing Plants
- Maintenance & Repair
- Welding / Service Trucks
- Welding Shops
- Automotive & Fleet Maintenance
- Pipelines
- Mining, Construction & Railroad Operations
- Marine/Ship Building / Offshore

#### Accessorize Your Reel

- Mounting Brackets
- Assorted Reel Accessories

www.coxreels.com • 1.800.COX.REEL
COXREELS® PC10 Series Power-Cord Series is a unique compact addition to our original line of power cord and light reels. This ground-breaking design sets a new bar as the ideal cord management solution capable of fulfilling any commercial or industrial application where space is limited. Modeled after the LG “Little Giant” Series, this Series is equipped with a continuous radius grommet style power cord guide and a unique C-PEP™ Composite hub featuring excellent chemical resistance and additional strength at cold temperatures.

FOR INDOOR USE ONLY!
All models rated at 115 volts, 60 Hz single phase only.

**COXREELS® PC10 Series Reel Specifications**

**SLIP RING**
- External heavy gauge CPC™ powder coated steel components cover for simple slip ring routine maintenance
- Electrical current runs through a 25AMP / 600V rated slip ring
- Include 5’ lead cable & grounding plug (except on less cord models)

**DESIGN & STRUCTURE**
- Selection of electrical accessories
- Compact & lightweight spring driven cord reel save space & facilitate workplace organization
- CoxComposite™ grommet with continuous radius design that does not pinch or catch the cord during operation
- Solid one piece, 12GA steel base & support post for maximum stability
- ½” solid steel axle & lubricated precision bearings for smooth rotation

**RETraction**
- Enclosed factory tuned & matched cartridge-style spring motor
- Non-corrosive CoxComposite™ ratchet hub with self lubricating bronze bearings secures cord at desired length

**SIGNATURE FEATURES**
- Professional grade heavy duty steel construction
- Durable proprietary CPC™ powder coat process
- Rolled edges & ribbed discs provide strength & safety
- Leading 2-year manufacturer’s limited warranty
- Made in the U.S.A. - Sold & Supported Worldwide

**PC SERIES - SLIP RING SPECIFICATIONS**

- External heavy gauge CPC™ powder coated steel components cover for simple slip ring routine maintenance
- Electrical current runs through a 25AMP / 600V rated slip ring (50AMP on select models)
- Include 5’ lead cable & grounding plug (Except on less cord models)

**PC SERIES - DESIGN & STRUCTURE**

- Selection of electrical accessories
- Single pedestal cord reel with space saving design facilitates workplace organization
- Guide arm adjusts to wall, floor & overhead positions
- Solid one piece, heavy gauge 1/4” steel base & support post for maximum stability
- Coxreels’ exclusive Super Hub™ dual axle support system on models with size index #3 & #4
- 1” solid steel axle & lubricated precision bearings for smooth rotation

**PC SERIES - REEL SPECIFICATIONS**

- Controlled retraction speed up to 80% slower on EZ-Coil® models
- Enclosed factory tuned & matched cartridge-style spring motor
- Non-corrosive stainless steel spring, pawl & zinc plated ratchet
- Multi-position lock ratchet mechanism secures cord at desired length

**PC SERIES - SIGNATURE FEATURES**

- Professional grade heavy duty steel construction
- Durable proprietary CPC™ powder coat process
- Rolled edges & ribbed discs provide strength & safety
- Leading 2-year manufacturer’s limited warranty
- Made in the U.S.A. - Sold & Supported Worldwide

**PC SERIES - POSSIBLE FIELDS OF APPLICATION**

- Power Tools
- Light Source
- General Industrial
- Manufacturing Plants
- Workshops

**ACCESSORIZE YOUR REEL - PG 50**

SD & SDH SERIES  STATIC DISCHARGE CABLE REELS

COXREELS® SD and SDH Series “Static Discharge” cable reels are built heavy duty and designed for long lasting performance. They are specifically designed to be used in combustible environments where the static buildup could ignite a spark and subsequent explosion. Static discharge or grounding reels are commonly paired with fuel hose reels found on page 33.

COXREELS® Alumi-Pro® Series “Aluminum Professional-Grade” spring driven hose reels have the strength of steel without the weight! The Alumi-Pro® series is modeled after Coxreels® popular P Series line of hose reels, but are uniquely constructed out of high quality aluminum. They’re compact, lightweight and non-corrosive making them the perfect choice when polypropylene or plastic hose reels are not the preferred choice due to their limited strength and durability.

COXREELS® Nitro-Pro® Series spring driven hose reels are the only nitrogen hose reels specifically engineered, tested and approved for use with nitrogen tire inflation systems. These professional-grade specialty reels feature compact space-saving size and heavy duty construction for flexible installation and long-lasting performance. The EZ-Coil® model features Coxreels® patented rewind safety system that retracts up to 80% slower than conventional spring driven reels. This reel is specifically designed to reduce workplace accidents and increase operator safety.

[www.coxreels.com • 1.800.COX.REEL]
SS SERIES STAINLESS STEEL SPRING RETRACTABLE HOSE REELS

Coxreels® SS Series “Stainless Steel” spring driven hose reels have similar features to their related series, but are constructed of high quality electro-polished stainless steel with stainless steel fluid paths. They offer clean, non-corrosive performance in applications that require it, such as food and chemical processing, marinas, and anywhere that rust, corrosion and contamination thrive.

**DEF SERIES & FUELING REELS**

COXREELS® DEF Series are equipped with a stainless steel external full-flow swivel and chemical resistant Viton® seals to provide a safe, reliable Diesel Exhaust Fluid (DEF) dispensing solution. The swivel is easy to access for simple seal maintenance and fast DEF dispenser hose installation. Coxreels® professional DEF reeling systems are available in heavy-duty single pedestal (SH Series) or supreme-duty dual pedestal (T Series) configurations. Both versatile designs are outfitted with Coxreels’ original Super Hub™ dual axle support systems to increase stability and reduce vibration during operation, making these reels the perfect DEF handling solutions for either stationary or rugged mobile applications.

### DEF-SH SERIES MODELS
Models are equipped with DEF hose. Note: Do not exceed listed hose O.D. to obtain maximum length.

### DEF & FUELING SERIES - REEL SPECIFICATIONS

#### DEF SERIES SWIVEL
- Non-corrosive stainless steel 90° full flow NPT swivel for Diesel Exhaust Fluid (DEF) dispensing applications.
- Swivel seals: Viton®

#### DEF SERIES HOSE
- DEF dispensing hose designed to convey the high-purity, aqueous urea solution DEF. Temperature Range: -40°F to +257°F

#### DEF SERIES SWIVEL
- Machined from solid brass 90° full-flow NPT swivel inlet for fuel dispensing applications. Electroless nickel plated steel swivel on 1” models
- Swivel seals: Nitrile

#### FUEL SERIES HOSE
- Fuel dispensing hose designed to convey non-aromatic fuels including diesel, kerosene, fuel oil & heating oil. Temperature Range: -20°F to +190°F

#### DESIGN & STRUCTURE
- Each of these reels is built of their standard series with their own unique features & benefits

#### RETRACTION

---

COXREELS® Fuel Dispensing Reels are designed to handle various non-aromatic fuel applications including diesel, kerosene, fuel oil and heating oil. Coxreels® professional fuel dispensing reels are available in heavy-duty single pedestal (SH Series) or box-style frame (SP Series) configurations. These fuel reels are an essential component found in utility, ground support, and bulk liquid handling transport systems. The convenient uncoiling systems with the added hose control allow the operator to efficiently handle fuel transfers.

**FUEL HOSE SH SERIES**

Models are equipped with fuel hose. Note: Do not exceed listed hose O.D. to obtain maximum length.

**REEL DIMENSIONS**
Please see noted series page for designated SIZE INDEX reference.
HEAVY DUTY SOLID SPUN DISCS WITH ROLLED EDGES - Not stamped, made with first of its kind CNC robotic spinning cell

LOW PROFILE RISER & OPEN DRUM SLOT for smooth, even hose wraps

INDUSTRIAL GRADE BRASS, machined from solid, full flow swivel with external fluid path for ease of seal maintenance

Steel swivel for reels with 1, 1½ & 2” I.D.

PERMANENTLY SEALED PILLOW BLOCK BEARINGS for easy rotation

HIGH QUALITY STEEL CONSTRUCTION with our durable CPC™ powder coat finish

ONE PIECE ALL CNC ROBOTICALLY WELDED steel “A” frame construction

ALSO AVAILABLE WITH STAINLESS STEEL construction & swivel

ELECTRIC MODELS FEATURE:

1125 SERIES FEATURES A SOLID STEEL HALO welded to the disc for a direct gear driven motor.

Chain & sprocket rewind on 1175, 1185 & 1195 Series

CHOICE OF MOTORS to customize your reel to your specific needs

Option - A Air Motor 4 Gast
Option - A Air Motor 6 Gast
Option - E & EF 12V & 24V Motor
Option - EA, EB & ED Explosion Proof 12V, 24V & 115V
Option - H Hydraulic Motor
CHOICE OF ACCESSORIES:

CHOICE OF 3 OR 4 WAY ROLLER BRACKETS in top, bottom or overhead rewind applications

CHOICE OF ELECTRICAL COMPONENTS from switches, to relays & speed controllers
COXREELS® 100 Series hand crank hose reels are lightweight, compact, versatile reels that perform at working pressures up to 4,000 PSI. Save time and effort while increasing the safety of your work environment. The sturdy “U” shaped frame and all steel construction make this one tough little reel. All listed models are supplied less hose. Stainless steel models are available.

- Assorted Reel Accessories
COXREELS® CM Series “Caddy Mount” and DM Series “Dolly Mount” hand crank hose reels offer lightweight, compact portability for long lengths of hose. Eliminate the task of manually coiling and uncoiling hose and easily transport it to the job site on wheels. High pressure applications are no problem with a 4,000 PSI rating. Also, a 4’ inlet hose with 3/4” female fitting and male garden adapter is available with this series for use with garden hose. See options below.

COXREELS® SM Series “Swivel Mount” hand crank hose reels swivel on demand in the direction your work takes you and locks in eight different positions as desired. Like the 100 Series, the SM Series is lightweight, compact and versatile with a working pressure up to 4,000 PSI. The “U” shaped base and hose control bar together add strength and rigidity while keeping the hose from slipping off the side discs. Add the SMK-202 wall mount bracket for swiveling mounted positions.

### REEL SPECIFICATIONS

- **Open Port**: Professional grade, compact & lightweight hand crank reels to store & maintain hose, cord, cable, wire, rope, tape, chain & more.
  - Open drum design for no hassle hose wrap
  - Open port for easy pass through for any type of hose, cord or cable
  - Hose, cord or cable not included.
- **Design & Structure**:
  - Solid one piece 10GA steel “U” shaped frame
  - Base has holes for temporary or permanent installation
  - Adjustable tension brake to prevent “free-wheeling” during operation, transport or storage
  - (On 112Y-CM only) Control bar prevents hose, cord or cable from slipping off the discs
  - (On 112Y-CM only) High quality one piece 1” steel tube frame structure
  - (On 112Y-CM only) “Caddy Mount” offers convenient portability
- **Retraction**:
  - Direct hand crank rewind

### SIGNATURE FEATURES

- Professional grade heavy duty steel construction
- Durable proprietary CPC™ powder coat process
- Rolled edges & ribbed discs provide strength & safety
- Leading 2-year manufacturer’s limited warranty
- Made in the U.S.A. - Sold & Supported Worldwide

### POSSIBLE FIELDS OF APPLICATION

- Hose, Cord & Cable Storage
- Residential/Commercial/Industrial Use
- Mobile or Stationary Units

### ACCESSORIZE YOUR REEL

- O-Rings & Swivels
- Hoses
- Assorted Reel Accessories

**Cable length based on SJ cord type**
**1125 SERIES**

**HAND CRANK & MOTOR DRIVEN HOSE REELS**

COXREELS® 1125 Series hand crank and motorized hose reels have the features demanded by industry professionals. The industry preferred design features a sturdy one piece all welded “A” frame base, low profile outlet riser and open drum slot design provides a non-crimping, flat smooth hose wrap.

**1185 SERIES**

**LARGE CAPACITY/VOLUME HOSE REELS**

**COXREELS® 1185 Series** hand crank and motor driven hose reels are designed to handle long lengths of large diameter hose for increased volume delivery. Coxreel’s exclusive low profile outlet riser and open drum design provide a noncrimping, flat smooth hose wrap. The sturdy all welded “A” frame base provides exceptional strength to handle the extra weight without sacrificing performance, even in demanding mobile applications.

COXREELS® 1195 Series motor driven hose reels are designed to handle long lengths of large diameter hose for increased volume delivery. Coxreels' exclusive low profile outlet riser and open drum design provide a noncrimping, flat smooth hose wrap. The sturdy all welded “A” frame base provides exceptional strength to handle the extra weight without sacrificing performance, even in demanding mobile applications.

  - Assorted Reel Accessories
COXREELS® 1275 Series “Dual Hose” hand crank or motorized hose reels are designed for large capacity applications. This series features dual plumbing with two swivel inlets and two low profile outlets that complement the open drum slot and provide a non-crimping, flat smooth hose wrap. The industry preferred one piece all welded “A” frame design adds rigidity and strength while the positive gear drive rewind assures consistent trouble-free performance.

COXREELS® 1275W Series hand crank or motorized “Welding” hose reels are built to manage long lengths of bulky twin line welding hose. The direct bevel gear drive, low profile outlet riser and open drum slot design are features greatly appreciated by the regular user. Dual brass swivel inlets on each side of the reel assure full flow trouble free performance.

100W & 1275W SERIES - REEL SPECIFICATIONS

100W SWIVEL

- External fluid path with 90° full-flow dual ported brass swivel offering both connections from the same side of the reel
- Swivel seals: VITON®

100W DESIGN & STRUCTURE

- Compact solid one piece, heavy gauge steel “U” shaped frame with open drum design
- Composite bearing for smooth rotation
- Adjustable tension brake to prevent “free-wheeling” during operation, transport or storage
- 9/16” – 16 UNF welding hose fittings

100W BRACTION

- Direct hand crank rewind

1275W SWIVEL

- Two external fluid paths with machined from solid brass 90° full-flow 3/8” NPT swivel inlets (1 on each side of the reel)
- Swivel Seal: VITON®

1275W DESIGN & STRUCTURE

- All welded steel “A” frame construction for superior reel structure
- Exclusive low profile outlet risers & open drum slot design for flat smooth hose wrap
- Permanently lubricated self-aligning pillow block bearings for trouble-free & smooth rotation

1275W BRACTION

- Choice of motor or bevel gear hand crank

SIGNATURE FEATURES

- Professional grade heavy duty steel construction
- Durable proprietary CPC™ powder coat process
- Rolled edges & ribbed discs provide strength & safety
- Leading 2-year manufacturer’s limited warranty
- Made in the U.S.A. - Sold & Supported Worldwide

POSSIBLE FIELDS OF APPLICATION

- Drum-located slip ring assembly for simple routine maintenance
- Electrical current runs through a 450 AMP rated slip ring

**100WCL DESIGN & STRUCTURE**
- Solid one piece, heavy gauge steel "U" shaped frame with open drum design
- Bronze self-lubricated spherical bearings at each end designed for heavy duty applications
- Adjustable tension brake to prevent “free-wheeling” during operation, transport or storage

**100WCL RETRACTION**
- Direct hand crank rewind

**1125WCL DESIGN & STRUCTURE**
- Designed for electrode & grounding lead applications
- All welded steel “A” frame construction for superior reel structure
- Narrow width for convenient installation in restricted spaces
- Permanently lubricated self-aligning pillow block bearings for trouble-free & smooth rotation
- Adjustable tension brake to prevent “free-wheeling” during operation
- Long-handled locking pin to secure reel from rotation during transport or storage

**1125WCL RETRACTION**
- Reliable direct gear drive on motor driven models
- Solid steel direct hand crank with smooth round handle
- See Motor Options Chart

### MOTOR OPTIONS

When ordering, substitute the “X” with selection below. Add 5 lbs to ship weight if reel is crated.
COXREELS® 1125PCL Series professional-grade hand crank and motorized cord reels feature the industry preferred design including a drum-located, easy to access slip ring assembly for simple routine maintenance and a sturdy all-welded “A” frame built to efficiently handle the most demanding of tasks. The unique permanently lubricated and self-aligning pillow block bearings at each end of the drum allow smooth rotation and are specifically designed for rough, heavy-duty applications. These innovative models handle long length of 12/3 Gage or 10/3 Gage SO type power cord.

- **Suffix “X” Options**
  - When ordering, substitute the “X” with selection below. Add 5 lbs to ship weight if reel is crated.

#### SLIP RING
- Drum-located slip ring assembly with easy to access cover for simple routine maintenance.
- Available with 30 Amps or 45 Amps, 600 Volt rated slip ring assembly (see chart)

#### DESIGN & STRUCTURE
- All welded steel “A” frame construction to strengthen the reel structure.
- Narrow width for convenient installation in restricted spaces.
- Permanently lubricated self-aligning pillow block bearings for trouble-free & smooth rotation.
- “Cable Keeper” to prevent the lead cable from whipping or twisting.
- Adjustable tension brake to prevent “free-wheeling” during operation.
- Long-handled locking pin to secure reel from rotation during transport or storage.

#### RETRACTION
- Reliable direct gear drive on motor driven models - NO CHAIN.
- Solid steel direct hand crank with smooth round handle.
- See Motor Options Chart.

#### SIGNATURE FEATURES
- Professional grade heavy duty steel construction.
- Durable proprietary CPC™ powder coat process.
- Rolled edges & ribbed discs provide strength & safety.
- Leading 2-year manufacturer’s limited warranty.
- Made in the U.S.A. - Sold & Supported Worldwide.

#### POSSIBLE FIELDS OF APPLICATION
- Power Tools
- Light Source
- General Industrial
- Manufacturing Plants & Facilities
- Service / Mechanic / Utility Vehicles
- Mining, Construction & Railroad Operations
- Accessorize Your Reel - Pg 50

### COXREELS® 1125PCL FEATURES

**All Internal Components**
- Drum-located slip ring assembly with easy access covers for simple routine maintenance.

COXREELS® Storage hand crank and motorized reels have the features demanded by industry professionals. These features include a CNC robotically heavy duty spun and ribbed discs with rolled edges for added strength, safety and durability and a sturdy all-welded “A” frame built to efficiently handle the most demanding storage tasks on either stationary or mobile units. These innovative models were selected from Coxreels standard series to handle long length of various materials including but not limited to hose, collapsible hose, power cord, cable, rope, wire, barbed wire, tape, and chain. Not all storage reels are listed, please consult factory for more models.

### DESIGN

- Professional grade hand crank & motor driven reels to store & maintain long length of hose, cord, cable, wire, rope, tape, chain & other
- Reels have no swivel & no riser, for storage only (Model with suffix -BYXX)
- Sturdy “A” frame base design

### STRUCTURE

- All welded steel “A” frame construction to strengthen the reel structure
- Each of these reels is built on the strength of their standard series with their own unique features & benefits

### RETRACTION

- See page 40 For 1125 Series hand crank & motor driven features
- See page 41 For 1175 Series hand crank & motor driven features
- See page 42 For 1185 Series hand crank & motor driven features

### SIGNATURE FEATURES

**EPDM Hose**

Versatile general purpose hose that is excellent for air and water service and many agricultural chemical transfer applications. The high tensile textile cord reinforcement provides excellent kink resistance. This industrial grade hose exceeds RMA Class A-High Oil Resistance requirements. Electrically non-conductive with a minimum resistance of one megohm per ft. Hose is intended for use at temperatures from -40°F to +212°F. **NOT SUITABLE FOR THE TRANSFER OF PETROLEUM PRODUCTS.**

**DEF Hose**

DEF dispensing hose with stainless steel fittings is designed to convey the high-purity, aqueous urea solution DEF (Diesel Exhaust Fluid). Hose tube compound is specially formulated with low extraction EPDM and peroxide cured to provide superior extraction levels to significantly reduce contamination that can clog a selective exhaust catalyst (SEC) system and stop diesel engine of a vehicle. Verified to meet ISO 22241-1. Temperature Range: -40°F to +212°F. Available in 25 & 50 length(s). *Stainless steel swivel with Utron® seals is required for DEF applications.** Consult factory for different hose length.

---

**Nitrile Hose**

Premium high quality, oil resistant, multi-purpose hose that is excellent for air and water service and many other chemical applications. The high tensile textile cord reinforcement provides excellent kink resistance. This industrial grade hose exceeds RMA Class A-High Oil Resistance requirements. Electrically non-conductive with a minimum resistance of one megohm per inch at 1000 volts DC. Temperature Range: -20°F to +212°F.

**HOSE UPGRADES**

**ADAPTORS & REDUCERS**

Adaptors are used where the size of the connection device is larger than, or of an equivalent size, to the entry thread of the enclosure.

Reducers are used where the thread size of the entry device is smaller than the entry thread of the enclosure.

DISTRIBUTORS MERCHANDISING DISPLAY

Corrlese Point of Purchase Merchandising Display is a proven "Sales Generator." INCLUDES: Heavy-duty powder coated steel display rack, full-color product specific hang tags, tri-fold brochures with mountable tri-fold holder & full-color display banner.

- Safe & Simple Demonstration Tool
- Creates Visual Impulse Purchases
- Mix & Match Up To Four CorrleseModels
- Durable Crinkle Black Powder-Coat Finish
- Adjustable Leveing Feet To Prevent Rocking
- Fast & Easy To Assemble
- No Additional Parts Necessary
- Offered Exclusively By Corrlese

Dimensions: 27” W x 58” H x 24” D
Weight: 50 lbs

To get a P.O.P. display working for you, call Corrlese Customer Service Department at 1-800-269-7335 and order yours today!
CUSTOMIZE YOUR REEL
FROM CONCEPT TO COMPLETION

Our engineering capabilities and manufacturing processes allow us to design and build top quality products for any conceivable application where reels are needed.

- Customize fluid paths/axles or create custom brackets, mounts, and accessories.
- Integrate with your specific hardware, systems, or devices.
- Modify drums, add divider disks, manipulate openings, or integrate hose handling devices.
- Combine features of various reel model lines, creating your own hybrid reel.
- Create custom retraction systems.
- Increase temperature and pressure capabilities, or multiply fluid paths.
- The possibilities are only limited by your imagination!

CPs & CCRs:: Coxreels offer two types of custom products. CCRs and CPs each offer specific benefits to our customers.

CCRs or Cox Custom Reels are custom reels assembled out of existing components. CCRs allow customers to combine features of various reels and create completely new reel lines. CCRs range from simple request of swivel size changes and hose combinations to a new dual hose side mount reel built by combining our MPD-N-430 with the mounting of a SG17-430.

CPs or Custom Products are custom reels that fall into a more demanding category that allows customers to request completely custom components and assemblies specific to their application. CPs include simpler items like custom powder coat colors and new special hoses and also more complex requests in the vein of new interfacing brackets and frames, or divider disks and even new mounting bases. CPs allow OEMs, factories, and industry specific companies to get a leg up on their competition by having a reel incorporated into their product or service only available to them. Match the right color, incorporate your own drive system, or develop a new product just for you!

POWDER COAT OPTIONS*

- BXX or -BXXX Blue
- RXX or -RXXX Red
- GXX or -GXXX Gray
- KXX or -KXXX Gloss Black
- CXX or -CXXX Crinkle Black
- WXX or -WXXX White
- NXX or -NXXX Green

To order a 1125-4-200 with green color, simply suffix the option model number on the reel model number. Example: 1125-4-200-NXXX

POWDER COAT OPTIONS*

To order a P-LP-350 with black color, simply suffix the option model number on the reel model number. Example: P-LP-350-KXX

*Minimum quantity or dollar amount may apply

POPULAR OPTIONS TO CUSTOMIZE YOUR REEL

To add any of these options to your designated reel simply add the option number to the suffix of the model number. 3 digit suffix for spring driven or 4 digit suffix for hand crank & motorized models. Consult factory for custom color match.

for SPRING DRIVEN REELS
- “-BVX” ... Change to Viton® seals
- “-BAX” ... Change to stainless steel fluid path & nitrile seals
- “-BBX” ... Change to stainless steel fluid path & Viton® seals
- “-BVX” ... Change to stainless steel swivel with food grade seals & non-toxic grease
- “-BXX” ... Add bend restrictor to hose
- “-BCX” ... Add Constant Tension (No latching mechanism)

To order a P-LP-350 with a bend restrictor simply suffix the option model number on the reel model number. Example: P-LP-350-BXB

for HAND CRANK & MOTOR DRIVEN REELS
- “-BVXX” ... Change to Viton® seals
- “-BAXX” ... Change to stainless steel fluid path & nitrile seals
- “-BBXX” ... Change to stainless steel fluid path & Viton® seals
- “-BDXX” ... Change to stainless steel swivel with food grade seals & non-toxic grease
- “-BXXC” ... Top 4-way rollerbracket
2 YEAR WARRANTY

Products manufactured by Coxreels are warranted for a period of two years from the date of sale to original purchaser. If within such warranty period any such equipment is proved, to Coxreels’ satisfaction, to be defective, Coxreels shall be liable for the repair or, at Coxreels’ option, replacement when the product is returned, freight prepaid, to Coxreels’ plant or a Coxreels’ service dealer. Coxreels’ obligation hereunder shall be confined to such repair or replacement and shall be further conditioned upon Coxreels receiving written notice of any alleged defect within ten days after its discovery. Coxreels assumes no responsibility for improper choice of models or where products are used in excess of rated capacities and design functions, or under abnormal conditions. We make available a free engineering service to help with any product selection, application or problem.

Warranty is void if the product or any part thereof has been tampered with, altered, or repaired by other than authorized service personnel. Coxreels’ responsibility ceases upon delivery to any common carrier, and we do not, unless previously instructed, insure shipments beyond point of delivery to such carrier. Any products, components or accessories that are not manufactured by Coxreels and are supplied by other manufacturers are subject to their respective guarantees or warranties. Certain products will carry their own warranties. Equipment specially built to customers’ specifications and requirements is not subject to cancellation nor returnable for credit under any condition. We reserve the right to modify or alter materials, dimensions, design and construction, when necessary, to improve performance.

RETURN POLICY

- No material will be accepted for return without written authorization by the factory, and a return goods authorization number assigned. Materials must be returned prepaid. A 20% restocking fee and a $5.00 repacking charge normally applies. No material will be accepted for a credit after one year from the date of purchase. Custom products and special orders are not returnable.

STATEMENT OF HOSE APPLICATIONS

Coxreels does not manufacture any hose. All hose supplied by Coxreels is selected from reliable commercial sources and is recommended for application on the basis of data supplied by the manufacturer. Coxreels assumes no responsibility for any other application or use. Hose supplied by Coxreels carries the warranty as listed by the manufacturer (90 days).

TERMS

- Net 30 days on approved credit • Minimum billing $25.00
- Service charge 11/2% on past due accounts

FREIGHT

- F.O.B. Factory • Our responsibility ceases upon delivery to common carrier. Consignee must file claim for shortage and damaged freight with the carrier.

DELIVERY

- Most standard items are shipped in five - ten business days or less. Consult customer service for availability.

Coxreels’ Customer Service - 1.800.269.7335

Call and request a Returned Merchandise Authorization# (RMA #). Warranty claims must be made by authorized Coxreels distributors. Be prepared to give the following information: product model number, serial number and purchase invoice number.

- Replacement parts ordered will be invoiced to your account.
- Once given an RMA #, you must write it on all boxes and paperwork. Coxreels will not accept your return without an RMA #.
- Upon receiving the return, if it is determined to be covered under warranty, a credit memo will be issued and mailed to you for your records.

PLEASE REVIEW ALL SAFETY INFORMATION BEFORE CHOOSING & USING ALL EQUIPMENT

SAFETY FIRST

SERIOUS INJURY, DEATH & DESTRUCTION OF PROPERTY can result from improper selection or improper use of products described in this catalog. Since COXREELS has no control over the number and variety of applications for which its products may be purchased or the conditions under which they may be used, COXREELS assumes no liability on any claim, whether in contract, tort (including negligence), or otherwise, for any loss or damage shall in no case exceed the price paid for product or its accessories.
